You've Earned Better Farm Insurance Premiums

Congratulations. By going through the rigorous processes involved in gaining Freshcare certification and ensuring on-farm and post-harvest food safety, you've not only made sure your produce meets the highest standards, you've earned the right to exclusive insurance coverage and competitive premium rates from AB Phillips.

You'll get Really Covered

When you insure through AB Phillips, it's about more than just ticking some boxes on the types of insurance you should have. To make sure you're really covered, we ask a lot of questions to ensure we understand in detail what you do and how we can best provide advice to help minimise your risk. We also work with you to find gaps in your insurance and where you are paying for something you don't need. Plus, because you've gone through Freshcare certification, we already understand how rigorous your food safety programs are and how they are minimising your risks.

The Experts in Cool Store/EPS Insurance

If you've got a cool store, you're probably finding your property insurance prices are going through the roof. It's because too many insurers classify all EPS Sandwich panels the same way, so everyone pays high-risk premiums, even when they may not have high-risk panels. The team at AB Phillips have worked with the Insulated Panel Council Australasia Ltd and insurance underwriters to develop a more sophisticated approach to your risk, which means underwriters trust their knowledge and listen to their recommendations. This trusted and specialist approach often results in reduced premiums and a sustainable long-term plan.

Cyber Crime Insurance

Make sure you are covered in case of a cyber-attack, phishing scam, data breach, equipment failure or even network interruptions. Now a non-negotiable for any business relying on business-critical data.

Public & Products Liability

Covers you and your business against the financial risk of being found liable to a third party for death or injury, loss or damage of property resulting from your negligence happening in connection with your business. Product Recall covers the expenses incurred if your product has to be taken off the retailer's shelf. There are set rules to follow and you need an insurance expert to guide you through them.

We are keen to see your quality control plan and contingency plan to help us build the Liability program for your business.

Management Liability

Management Liability provides cover to your business against a range of employment related claims such as wrongful dismissal, misrepresentation, wrongful failure to employ or promote, plus it covers directors being sued personally by entities such as the Tax Office, Work Safe or ASIC.

Motor Fleet Insurance

Looking after the insurance for a fleet of business vehicles on a case-by-case basis can quickly become an administrative time drag. Motor Fleet insurance removes all that administration by amalgamating all the cover in one policy. Cover can include registered and un-registered vehicles, cars, trucks, cranes and even earthmovers.

Marine Transit

Marine Transit insurance protects you with all the risks associated with transport (including theft) when your goods are being transported on road, rail, in the air or on water, including incidental storage.

AB Phillips Pty Ltd, ABN 91 007 075 934, Australian Financial Services Licence No. 234457. Please obtain and consider our Financial Services Guide (FSG) and the relevant Product Disclosure Statement (PDS) for full details of the terms, conditions and exclusions relating to the policy, before making any decision to acquire a product.
