

Berto and Anna Srhoj run Australia's most extensive Tahitian lime orchard in Dimbulah, Far North Queensland: Srhoj Farming.

"We use the Farm in ONE program daily and have also been involved with developing and testing the program. We have been a customer of HTM Complete for 15 years and have contributed valuable information regarding the app's development over the past three years."

"After using the Spray Schedule module for 12 months, I saved 10% on my chemical use. I have also used the Auditor addition in General Tasks to complete all my reporting for HARPS, OH&S and Freshcare. I efficiently reduced my time by three hours, providing all documents to the auditor electronically"

- Berto Srhoj - Julum Citrus
