Freshcare Recognised Suppliers Register

About, use and promotion of Recognised Suppliers

The **Freshcare Recognised Supplier Register** provides the fresh produce and wine grape industries with access to a number of suppliers of products, materials and services that can assist their business.

The Freshcare Standards require that materials and services that may introduce a food safety and/or business risk, are managed with evidence of compliance kept for suppliers of such materials or services.

The Freshcare Recognised Supplier Register provides suppliers in the listed categories the ability to not only promote and disclose the services they offer to industry, but also the option to upload and display evidence of how they comply with Freshcare Standard requirements (this could be via evidence of certification or compliance, certificates of analysis, written declarations or statements).

Benefits of registering as a Recognised Supplier

If your business provides products or services to industry, then a listing on the Freshcare Recognised Supplier Register provides you with a remarkable opportunity to not only advertise but demonstrate the criteria that underpins the products and/or services you provide.

The Freshcare Recognised Supplier Register is promoted to all Freshcare participating businesses via the Freshcare Standards, Website, eLearning and training resources. Additional promotional opportunities are also extended to businesses' who take up the Premium Listing option.

The **Freshcare Recognised Supplier Register** is currently offering products and services in the following categories:
